Job Application for Project Engineer - Automation

Dear Manager / Human Resources,

I'm excited to apply for the position of **Project Engineer - Automation**. I have completed Master of Science in Electrical Engineering with more than 8 years of experience as Instrumentation and Control Engineer in all the stages of Engineering Design (Conceptual / FEED / Detailed) for FPSO, FLNG and Fixed platform. I have worked at offshore oil & gas industry leaders as Daewoo shipbuilding & marine engineering and Emerson Process management. I have experience in specifying data sheet and functional specification for pressure, temperature and flow instrument. I possess extensive experience in the design, installation and commissioning of Instruments, PCS (Process control system), FGS (Fire and gas system) and SIS (safety Instrument Systems) with advanced knowledge of the associated regulatory requirements including IEC and NOPSEMA. I have worked with company standards of TOTAL and CHEVRON. I can apply this experience and skills to design electrical control systems of the next generation.

Thank you for taking your time to review my profile.

Sincerely,

Chetan Kansagara
